position in her profession.

Upon the subject of the annual examinations, the report says: "The trustees are convinced, from the results of these examinations, that great care, attention, and zeal have been bestowed upon the pupils, and are fully confirmed in their previous opinion of the fidelity and efficiency of the teachers. Laboring under many disadvantages, arising from the want of proper school accommodations, &c., they have in every instance executed the difficult tasks assigned them with great success, and they richly deserve the thanks and cordial support of the entire community."

districts, in which the pupils all receive most gratifying encomiums for their rapid and thorough advancement in their studies.

The summary of the report expresses the high satisfaction of the committee with the efficiency of the present system of education; and, after admitting that the interests of the schools would be greatly advanced by the appointment of a general superintendent, as recommended to the city councils by former boards, refrains from urging this additional expenditure in the present condition of the corporation's finances. "Moreover," it continues, "the aid of the general government has already been solicited in the most earnest manner, and with partial success, inasmuch as a bill' for the support of the public schools of the city of Washington passed the Senate at the last session of Congress, and there is every reason to hope for its final success."

The report then goes on to respectfully call the attention of the city councils to this matter, and asks their careful examination of a memorial which was presented to Congress last winter, setting forth a state of facts which were discovered by actual investigation, the consideration of which, as regards the stated fact that thousands of children in this city are not provided with any means of education in the schools, presents a sad foreshalowing of ignorance and consequent crime and infany which will be brought on this city as these young children grow into manhood, unless a helping hand is stretched out over them, and their minds be reclaimed by the influence of a wholesome school education. The simple fact, stated in this memorial, that our public schools cannot accommodate 2: per cent of the number of children of the city is the most argent appeal for help in the establishment of more extended school accommodations that could be made by any other force of reasoning whatever. tions that could be made by any other force of rea

The committee do not think it advisable to add to the revenue of the schools by increasing the present tax upon the citizens, and they admit that they can see no way to overcome the difficulties and embarmasments by which they are surrounded, except by perseverance in the effort to obtain from Congress the ald recommended in the Senate's bill of the last session.

In order to convince the councils of the city of the truth of their statements about the serious want of fit school rooms for the pupils, the committee respectfully suggest that the boards of aldermen and common councilmen, with the board of trustees, visit the several school-houses in each district, with a view to a more thorough knawledge of their condition and necessities in this respect.

thorough knawledge of their condition and necessities in this respect.

Upon the subject of vocal music in the several schools the report says: "During the several examinations the monotony of the exercises was relieved by vocal music. Although this is not recognised by the board to be so far a legitimate part of the education of the children of the common schools as to be embraced in their estimate for the yearly appropriations, nevertheless it has been permitted and encouraged, and many of the children have availed themselves of its benefits, voluntarily contributing to defray the expense of a teacher. There can be no doubt of its beneficial effect upon the children, both physically and mentally, and the board simply decline embodying it as a permanent element of the system for the reason that they are without the means of properly teaching it."

ALEXANDRIA: LOUDOUN, AND HAMPSHIRE RAILROAD COMPA-NY.—The sixth annual meeting of this company was held on Tuesday last at their office in Alexandria. Robert on, esq., was chairman, and Reuben Johnston secretary. The annual reports of the board, the examining committee, the consulting engineer, and the treasurer were all read and approved. The salary of the president was continued at \$2,000, and Lewis McKenzie was unanimously re-elected. Messrs. Cassius F. Lee, of Alexandria, Wm. H. Gray, of Loudoun, and Benjamin Morgan, of Clarke, were elected directors on the part of the private stock-holders; Robert H, Miller, James P. Smith, of Al-

exandria, and John J. Coleman, of Loudoun, the examining committee for next year. The annual meetings here after were ordered to be held on the fourth Tuesday in September.

The board, after the adjournment, held a meeting and re-elected Reuben Johnston, esq., treasurer. From the president's report we learn that the graduation and many source of extra public states. sonry of forty miles of the road is nearly completed and will be ready for the crossites and rails as soon as they can be laid down; and the timber for the bridging upon 25 miles of the line is contracted for and will be delivered this fall; and a contract has been made with T. S. Jamieson for a portion of the freight cars, as well as for the chairs for 12 miles of the track. The 1,000 tons of iron are on the spot and will be laid down during the fall, and arrangements are in progress for a further supply. The work on section A (from the depot at Alexandria to the crossing of the Washington turnpike) has been delayed longer than was desired by the board in consequence of its expensiveness and of the heavy land damages requir-ing cash means, which could be more judiciously expend-ed elsewhere. Arrangements are now made, however, to proceed, and the contractor, Mr. James Roach, is again at work at this section.

work at this section.

The board, under the order passed at the general meeting of stockholders on the 22d day of July, have effected an arrangement with the county court of Clark county for the payment of their subscription of \$100,000 to the stock of this company. The action of this county, it is hoped, will induce the county of Loudoun to make a simi-lar subscription of \$100,000 at the proper time. The loss of the wheat crop in Loudoun the present season makes them unwilling to press this matter at the present mo-ment, but it will be done soon. The corporation of Lees-burg have under consideration a subscription to the stock, and a favorable result is hoped for.

The engineer states in his report that the work of construction has arrived at that stage of progress where no obstacles of a physical nature are likely to prevent the completion of this portion of the road, and its opening for public use, from Alexandria to Clark's Gap, by the 1st of July, 1859.

TROUBLISOME TENANTS. - A few nights ago, as we learn rom the Star, Mr. C. M. Keys, corner of Twelfth and C streets, rolled up a large quantity of 25 and 50 cent pieces in a piece of paper, and stuck them into the hole of the stove pipe in his office. The next morning they were missing, which caused the proprietor considerable measiness; masmuch as his office bore no evidence of having been forcibly entered. During the day, however, he accidentally discovered a portion of the money in a corner of his wood-yard, in a place sacred only to rats. This opened the eyes of Mr. Keys to the fact that he To conclude with the face of the conclude with the had been robbed by those mischievous little animals, and he at once set about devising means to recover his lost Selim Petible funds. Carefully wrapping a piece of coal in a paper, and attaching a spool of cotton to it, he placed the package on the same position where the money had been and left, on the following morning the package had vanished; but the cotton thread had been true to its mission, and pointed out the path of the burglars. Following it up for ome distance, the balance of the money was discovered.

carefully deposited in bank, in a remote corner of the

by mentioning the fact that no change of system was alopted in any of the schools during the year, and speaks satisfactorily of the course of the teachers, and of the success which had attended their labors. After detailing the number of schools and the number of the tailing the number of schools and the number of the tailing the number of pupils who were teachers, as well as the number of pupils who were

Long CHILDESS.—Within a day or two past three children have strayed away from their homes in this city.

They were, a son of B. J. Semmes, about four years old, a son of Mr. James H. O'Leary, about five years old, and a child of Mr. McCook, of the Patent Office. Any information in regard to the above, or children lost at any time, if left with Captain Goddard, will be communi-cated to their parents; and parents whose children are missing should leave word at his office, in the west wing

Mr. Booth last night was a very fine performance; and, indeed, the whole play went off well. Mr. W. Donaldson as Edmund, and Miss Jennie Parker as Cordella, were also deserving of special commendation. The evening's entertainments likewise consisted of a National Medicy Dance by Miss More Parkers and Miss M ace by Miss Mary Partington, which was executed in a graceful manner, and the amusing vaudeville, The Loan of a Lover, which brought down continued roars of laughter. This evening Mr. Booth is to appear as Sir Giles Overreach, in the celebrated play, "A new way to pay old Debts." The management are doing all in their power to render this place of amusement attractive to the malic, and the fashionable and the salionable and the fashionable and the salionable and the fashionable and the salionable an public, and the fashionable audiences that nightly attend

BOARDING AND DAY SCHOOL FOR YOUNG LADIES—FRENCH AND ENGLISH, 309 F street, Washington. pal-DONALD MACLEOD, A. M., University of Glasgow

Principal—DONALD MACLEOD, A. M., University of Glasgow.

The next academic term will begin on the second Monday of September and end on the 50th of June following.

For thorough literary and scientific culture, sound elementary instruction, the efficiency and success of the Presch department, and for social advantages, it is unarransed.

Every class, the primary as well as the senior, enjoys the personal espervision of the Principart, who is assisted by three ladies of ability, experience, and the highest education.

No school cut of Paris possesses a purer standard of good French, or better corrective of bad French, in conversation and writing, or research facilities for aguiring that language. It is strengthened by the accession of Prof. Alexansia.

MUSIC ON THE PIANO, THE GUTTAR, AND THE HARP tought by the ladies of the family, offering superior advantages to day scholars as well as hoarders.

The highest class, composed of first sentors of last term, will take the range of literature and science for which they are prepared, and will receive at the end of the year diplomas or suitable testimonials. For further information see circulars.

Sep 1—dif2w [Star&States.]

ST. VINCENT'S SCHOOLS.—The Day-schools attached to St. Vincent's Asylum will resume business on Wednesday next, ist of September. The large addition lately made to the house affords a fine opportunity of rearranging the schools, and after the experience of last year they will begin this torm with very many advantages. There are, in fact, three distinct schools at St. Vincent's: the Orphans' School, the Free School for day scholars, and the Pay School. The first is, of course, for the orphan immates of the Asylam, who, in their discipline and education, are under the immediate care of Sisters detailed for themselves. The second, or Free School, is to meet the wants of poor children, whose parents cannot pay, and all who are thus circumstanced are carnestly pressed to send their children to this school. It is entirely distinct, but just as diligently attended to as any other, the training and teaching being strictly alike in all. If the results he not always what might be desired, perhaps the fairest explanation of it 2, that the poor parents can sedom leave their children long enough at school. The third is the Pay School. The Sisters of Charity have a Pay School only in ald of the charities required for the support of the orphans. In this school it is literally true that the Sisters teach, work, and carn for the orphans, as it had to the that all who send their children there really to far contribute to support the orphans; and if this were not so, the Sisters of Charity would not be permitted to keep a Pay School. All that is treby required for the practical purposes of life, all that constitutes a sound and thorough English education, is well taught in this school; and in all its circumstances, its charitable object, its method of cultivating mind and hart, there is no more users sing or more important school for girls girling the listincit, combining, under a very judicious management, comparatively little expense to parents with a full average improvement of the children.

A Tyson and Sisters, for boarding populs, situated on the Baltimore and Washington Baltroad, 16 miles from Washington city.

The duties of this Institution, which has been established for eighteen years, will be resumed on the 13th of September. Circulars flay be had by application to the Seminary, or at Pr. Tysas's, corner of I and 10th streams, Washington.

Laters directed to Laurel Factory postoffice will be promptly attended to.

ST. JOHN'S SEMINARY, No. 408, 15th street, between H and I streets, Washington, D. C. Dr. L. J. Draper, prinipal,

This School will open on the first Monday in September next. For further particulars inquire of the Principal at the school-room after the first of September, or of Rev. E. Q. S. Waldron, St. Matthew's Aug. 24

THE FRENCH LANGUAGE.—The facilities af-THE FRENCH LANGUAGE.—The facilities afforded at the FEMALE ENGLISH AND FRENCH COLLEGIATE INSTITUTE for a thornegh and practical knowledge of the French language are not surpassed or equalled by any other institution in the city. The corps of French teachers will be increased the coming year, which will commence on the 6th of September, and more of the studies will be pursued and taught, through the medium of the French, than heretofore, as a large majority of the popies now speak to language with fluency. The advantages afforded by the soirces alone will enache any one who his a tolerably good reading knowledge of the language to speak it fluently in the course of the winter. Circulars and catalogues can be obtained at all the book and music stores, and at the institute, No. 182 is treet, "Gastby's Row." HRAM CORSON, Principal.

M'ME CAROLINE ROLLIN CORSON, Aug 21

RS. KINGSFORD'S SEMINARY FOR YOUNG LADIES, No. 415 E street, Washington, D. C.—The exercises of this school will be resumed October 1, 1858. Circulars, including terms, &c., &c., will be furnished on application to the above address.

MISS BROOKE'S ENGLISH AND FRENCH Boarding and Day School, Seven Buildings, No. 138 Penniyl-M. Browning and Day School, Seven Buildings, No. 138 Pennsyl vanis avenue, Washington, D. C. The duties of this establishmen will be resumed on Monday, September 15, 1868. Greulars to be obtained of the Principal, and at the bookstores.
